MEMORANDUM FOR: Chief, Commercial Division

1 December 1953

SUBJECT : Liquidation of Project [REDACTED]

25X1A

1. In accordance with our telephone conversation, we would appreciate your suggestions as to how to handle this one. The study does not contain information concerning the amounts involved or the prospects of recovery. Also there is no discussion of why authority should be vested in the Commercial Division in this matter which is in one sense essentially a financial problem. For that reason we should like to secure the Comptroller's comments. You may wish to consider also whether this should be handled under the provisions of paragraph 9.4 of the Confidential Funds Regulations.

25X1A 2. In view of the apparent urgency, it is suggested that you might wish to discuss this with [REDACTED] to obtain his views.

3. Will you please advise any way this Office can be of assistance in moving this.
